

Home Theater Solutions

Whether home theater means a cozy corner of your living room or a screening room with theater seating, Control4® products make it easy to find a solution that fits your home perfectly. The possibilities are endless — and setup is easier and more affordable than you ever imagined. Here are just three of the many ways to build and control a home theater.

Control What You've Got

1. Start with your existing home theater, including TV, receiver, amplifier, and speakers.
2. Add automation with the Control4 Home Theater Controller.
3. Eliminate your current remotes and control everything with the Control4 System Remote Control.
4. Control lighting in the room with Control4 Wireless Dimmers and Switches.

Build More Control — And An Awesome Home Theater

1. Start with your TV, DVD player, and a good set of surround sound speakers.
2. Eliminate your current remotes and control everything with the included Control4 System Remote Control.
3. Control overhead lighting in the room with Control4 Wireless Dimmers and Switches.
4. Control lamps in the room with Control4 Wireless Outlet Dimmers.

Control It All And Rock The Whole House

1. Start with your TV, DVD Player, and CD Changer.
2. Add 80 gigabytes of digital music and multi-room audio capabilities — as well as complete home theater and whole home automation — with the Control4 Media Controller.
3. Enable audio distribution from the Media Controller by adding Control4 Speaker Point to rooms throughout the home.
4. Eliminate your current remotes and control everything with the included Control4 System Remote Control.
5. Control overhead lighting in the home theater with Control4 Wireless Dimmers.
6. Control lamps in the home theater with Control4 Wireless Outlet Dimmers.

A Quick Guide To Control4 Home Theater Products

Use these products to create our Rock The House Automated Home Theater:

Media Controller

This feature-packed music server boasts an 80-gig hard drive and the power to control any automated function in a home.

Wireless Dimmer

Packed with features, these intelligent dimmers offer elegant and convenient lighting control that's affordable for every home.

System Remote Control

This handheld interface features wireless connectivity, a backlit LCD screen, and seamless integration with a Control4 home automation network.

Wireless Outlet Dimmer

This compact device adds intelligent, automated features to any dimmable plug-in device and integrates seamlessly in a Control4 home automation network.

Speaker Point

Featuring seamless integration and an on-board digital amplifier, this remote audio distributor makes it easier than ever to bring digital music to every room in the house.
